on political conditions under the Heingan Autonomous Government which governs the area of Hulumbuir or Barga. This government should not be confused with that of the Inner Mongolian Autonomous Movement Association 25X1A

- 1. The general economic situation in Hulumbuir is good. Although the Outer Mongolians stripped the area of most of its livestock when they left in January 1946, the return of much of this livestock at Erkimbato's demand and a good season have resulted in an increase in livestock almost to the number in Mulumbuir at the time of the Japanese surrender. A good cow sells for only \$10,000 Hsingan Autonomous Government currency; a 100 kilogram (?) bag of flour for \$1000; and a sheep for \$1000. (Shanghai Note: The exchange value of the Hsingan Autonomous Government dollar is not given.)
- 2. Denominations of the Hsingan Autonomous Government note range from \$5 to \$1000, and all notes are printed on the same pattern. One side is printed in Chinese characters and the other side in Mongolian script.

This document is hereby regraded to CONFIDENCIAL to accordance with the letter of 13 October 1073 from the Director of Central Intolligence to the Archivist of the United States. Next Review Date: 2008
